MEDigi workshop

Causeway 2.4

AMEE 2023

ICAM Conference, Quebec, Canada

We took part in the International Congress on Academic Medicine in Quebec City, Canada in April.

Over 1500 delegates from around the world and Canada attended. A major theme was "One Health" and the importance of a "Joined up" global approach to health care. We are pleased that the "One Health Institute" uses Causeway as their e-authoring platform.

Celebrating a successful conference

MEDigi Workshop

At the end of October we conducted a Causeway workshop for users in Finland. There were 20 attendees who got to see the main new features that are now available in Causeway 2.3 , but they also got a sneak preview of what is coming up in Causeway 2.4

Causeway 2.4

Causeway 2.4 has just been released. New features include:

Text pop-up feature - You can now create Pop-ups which allow text to show in a separate panel when the user hovers over a specified text.

Adding images inside text blocks—You can also now add small images inside text blocks.

QR code—The system automatically generates a QR code which can be displayed on screen and also copied to the clipboard for use in other documents, allowing users to link to your learning materials in a variety of ways.

Text fonts— A variety of new text fonts are now available for inclusion in your learning materials.

Permanent URLs—The URL associated with each individual learning package no longer changes when you make changes to your learning package.

Own Logo—We are now able to add your own logo to the top bar of your learning packages.

AMEE, August 2023, Glasgow

We are gearing up for AMEE, which this year is taking place in Glasgow. The main theme of AMEE 2023 is *'Inclusive Learning Environments to Transform the Future'* We will be launching Causeway 2.5 at the conference which will be a major development in terms of integration with other systems.
